

Information about food club, WI-FI, fuel and sightseeing

Food club:

During the training week you can get food for lunch in the terminal building at Skive Airport.

To be able to get food, you have to join the food club at Skive Airport. You can do that after you have arrived.

If you want lunch you have to buy a ticket for your lunch the day before, so we will be able arrange it for you. Tickets for the following day can be bought at the information desk until 12:00.

We will not be able to supply food for you if you don't buy the ticket in advance.

In the terminal building, we will make notes on the blackboard, where you can see the next day's lunch menu. Then you can select if you will join or not.

You will also be able to buy water, cola and other soft drinks. Beer will also be available. Also we have a little mix of chocolate things and some ice creams. We will also have some fruits.

In the competition week, you will also have lunch at the airport. This is included in your entrance fee and you don't have to order that.

Wi-Fi at Skive Airport

The WI-FI at Skive Airport during training week and competition will be without password. There are two networks with the following SSID:

SSID: EKSV
SSID: EKSV_TERMINAL_ADMIN

Information about other network will be posted in the terminal building if there is any available.

Fuel:

Fuel will be available during the training week. Fuel station will not be open the whole day. It will be open at certain times in the morning and in the afternoon. Expect closing between 16:00 to 18:00. It also depends on the demand for fuel. See more detailed when you arrive. But don't worry – we will supply fuel for you.

Tourist information:

In your welcome bag there should be some tourist information, but we will also here mention a few things you can see in the Skive area.

Just south of Skive Airport you will find Daugbjerg og Mønsted Kalkgruber (Limestone mines). Mønsted Kalkgrube is the world's largest limestone mine. Humidity and temperature is perfect conditions for the maturing of cheese. Humidity is 98 % and temperature is 8 degree. There is about 2 km where you can walk on your own. There are also multimedia shows and other things.

Here is the link to Mønsted: <http://www.monsted-kalkgruber.dk/en>

For Daugbjerg the link is: <http://en.daugbjergkalkgruber.dk/>

There is a lot more to see in our area but it is also about flying, so you will not be able to see it all this time. But then you can find the things that are interesting for you, and then you can always come back later. Feel free to ask us about things. It is not sure we know, but we will try to help or find someone who can help you.

Looking forward to see you soon.

Supporters at Skive Airport.
